SUMMARY

Junior Data Analyst with hands-on experience in data analysis, visualization, and database management. Proficient in SQL, and Power BI, with strong analytical skills and a background in statistics. Recognized for delivering insights through effective data interpretation and teamwork.

Education

Assiut University - Faculty of Computer Science (2021-2025)

Bachelor of Science in Computer (GPA: 3.2 / 4.00) Assiut, Egypt

Experience

Dashboard for Employee Rotation Performance Analysis

I developed an interactive dashboard using Power BI to analyze employee rotation performance at the regional and monthly levels.

Power BI Engineer Intern

Digital Egypt Pioneers Initiative (DEPI)

- Gaining proficiency in Excel for data analytics, including advanced formulas, lookups, and conditional formatting.
- Developing expertise in Power BI for creating interactive dashboards, connecting to data sources, and building comprehensive reports.
- Enhancing communication and collaboration skills through regular interaction with instructors.
- Completing all assigned tasks and projects successfully, demonstrating a strong work ethic and commitment to continuous learning

Projects

Sales Analysis Dashboard: Created an interactive Power BI dashboard to analyze sales performance, identify trends, and forecast future sales for an e-commerce client.

Chocolate Factory Data Analysis: Performed data analysis to improve production efficiency and quality, providing recommendations to optimize operations and increase profitability.

Customer Feedback Analysis: Used Excel and Power BI to analyze customer feedback data, providing insights on customer satisfaction and areas for improvement.

HR Analysis Dashboard: Developed a dashboard using Power data, tracking key metrics such as hiring rates, resignations, and leave balances.

Call Center: Description: Created a performance dashboard for call center analysis, including metrics such as call volumes, call durations, and customer satisfaction levels.
